

1/10 ounce Gold Pandas

The one tenth of an ounce Chinese Gold Panda coin has been issued since 1983. Its face value is 10 Yuan.

It is 0.999 gold, weighs 3.1103g and has an actual gold weight of 1/10th oz.

The obverse shows the Temple of Heaven and the date the coin was issued, and the reverse shows a Panda design, different from year to year, plus the face value. The coin is of course worth its weight in gold (at least), not the face value.
